An ORCID iD is a persistent identifier connecting researchers with their research.

ORCID is interoperable across the entire research ecosystem.

- ORCID: 4+ million registrants worldwide
- ORCID is for all disciplines. 37 work types are supported in 4 categories: Publications, Conference, Intellectual Property, & Other. [https://members.orcid.org/api/supported-work-types](https://members.orcid.org/api/supported-work-types)

**ORCID is integrated with the workflows of journals & funders.**

**ORCID Improves Discoverability & Impact.**

- ORCID can be used in 500+ systems worldwide: [https://orcid.org/blog/2016/12/29/2016-year-review](https://orcid.org/blog/2016/12/29/2016-year-review)
- See ORCID Blog for more examples [https://orcid.org/blog](https://orcid.org/blog)

**The ORCID business model is congruent with the land-grant mission: researchers at center, open source, community-driven. ORCID will never be sold.**

- ORCID is funded by 601+ funder, publisher, and institutional memberships. UTK became a member institution in August 2016. ORCID is also funded by grants, receiving an additional 1.84 million from the Helmsley Charitable Trust in 2016. This award helped support continuing efforts to increase adoption of ORCID. In 2016 ORCID iD registrants increased 50%, and ORCID members increased 29%. Source: [https://orcid.org/blog/2016/12/29/2016-year-review](https://orcid.org/blog/2016/12/29/2016-year-review)
