Ask your veterinarian first about animal health and behavior.

Google retrieves search results to maximize profits, not animal health. It is better for your animal’s health and your wallet to seek information from trusted sources, four examples below, after visiting your veterinarian.

Sources recommended by your veterinarian.

- PreventiveVet.com: curated by Dr. Jason Nicholas
- VeterinaryPartner.com: trustworthy information written by vets or vet techs. A service of VIN.COM
- AVMA Money Tips for Caring Pet Owners: tiny.utk.edu/avmamonetytipsowners
