Publication Versions

Pre-Print

“The author’s manuscript version of the publication that has been submitted to a journal for consideration for publication.”

Alternative Names²: author’s original or submitted manuscript under review

Post-Print

“The author’s final manuscript of the publication, which is submitted to the publisher for publication. If published in a peer-reviewed publication, the post-print contains all revisions made during the peer-review process.”

NOTE: Post-print is not the same as proof. Proof is not to be shared.

Alternative Names: accepted manuscript, final manuscript, or accepted author manuscript

Publisher’s

“The published version is the final version of the article produced by the publisher. When dealing with hard-copy publications, this is the printed version found in books, proceedings and journals.”

Alternative Names: version of record (VoR), enhanced VoR, or corrected VoR
