Data Management Plan Review

**Data Management Plan**
- ✓ Data types & formats
- ✓ Metadata
- ✓ Access & sharing
- ✓ Re-use
- ✓ Archiving & preservation

Create a Data Management Plan in the DMPTool and submit it for feedback.

DMPTool: https://dmptool.org/

Creating Your Data Management Plan Workshops

- • How to Create a Data Management Plan (for NSF, NIH, NEH, IMLS, and others)

- • How to Use the DMPTool to Create a Data Management Plan

- • Check the Office of Research Training site for dates and times. https://tiny.utk.edu/training

One-on-one Consulting for Data Management

- • Choosing the right metadata standard
- • Choosing the right data repository
- • Locating data sets for your research
- • Assigning a persistent identifier to your data set
- • Navigating intellectual property issues

Data Management Best Practices Workshops

- • How should I document my research and data?
- • Where can I find data sets for my research?
- • Where should I archive my data?
- • How can I get credit when others use my data?
- • Which file types should I use?
In brief: Many funding agencies require data management plans (DMP) as part of grant proposals. The DMPTool helps institutions & researchers to create high-quality DMPs that meet funder requirements, including those from:

DMPTool Benefits for Researchers

- Help you meet the funding requirements of your next grant with current data management planning information
- Put you in touch with expert help at your institution and help you comply with your institutional requirements
- Improve the quality of your research and increase its impact through better data management practices
- Collaborative plan creation and co-ownership with colleagues
- Institution-specific templates and help

What is the DMPTool?

Free step-by-step web application for creating data management plans for funders

More DMPTool Features
